Part III DETAILED ACTION

1. Claims 4, 6, 14, 16 and newly added claim 18 are pending.

The following new ground of rejection is necessitated by Applicant's amendment filed 3-24-03

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 4, 6, 14, 16 and 18 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has no support in their originally filed specification or claims for the sub-genus claim language, wherein said antigen is not bovine HMG-1 or bovine HMG-2 in claims 4 and 14 and all of newly added claim 18.

Applicant is attempting claim around the prior art while maintaining breadth and thereby creating a sub-genus. At the time of their original filing, one of skill in the art would not have envisaged their invention to all HMG-1 or HMG-2 proteins that are 80% or 90% homologous to SEQ ID NO.1 or 2 BUT not including bovine HMG-1 or HMG-2. It cannot be said that a subgenus is necessarily described by a genus encompassing it and a species upon which it reads. In re Smith 173 USPQ 679, 683 (CCPA 1972). See MPEP 2163.05(b).

Furthermore, Applicant's newly added claim has no support for the exact specific residues of the fragment of SEQ ID NO 4 or 6.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period,

then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
